This beautiful house sits in a truly magical position overlooking the Jalon Valley with views of the surrounding mountains and vineyards. It was built in 2000 and designed by the current owner whose vision was for a peaceful countryside retreat with space to host and entertain. Composed of approximately 370 sq ft of living space and lots of mature Mediterranean gardens where a 10 x 5 length swimming pool, secluded outdoor shower nestle.

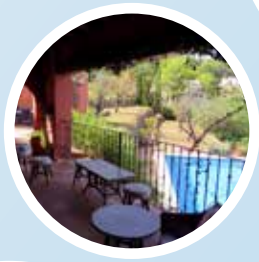

Both the house and the pool house sit elevated with unspoiled views. The house flows seamlessly from the inside to the outdoors with rustic outdoor seated areas surrounded by fragrant plants. The Fruit trees surround a secluded outdoor shower with Bancalis that lead down to the vineyards below. The many terraces offer different options for dining and entertaining while watching the magnificent sunsets. The many mature trees offer shade and space to hang a hammock.

Once you enter this beautiful, quaint property and pass through the ornate wooden doors that lead into the grand entrance, you will be sure to notice the impressively vaulted ceilings and elegant staircase wrapping around the interior walls. From the main entrance you're able make your way into the heart of the home, with an open living/dining room and kitchen, only separated by a small central partition wall. The kitchen has been well equipped with a rubbish disposal system, UV light filters and a decal for the water, as well as an adjoining pantry and a laundry room. The main focal point of the kitchen being the sizable, granite topped, central island tying the room together. Also on the ground floor, you will find two bathrooms and two generously sized, double bedrooms, both allowing for an abundance of natural light and displaying incredible views. Once atop the entranceway staircase,

you will be greeted by two spacious double bedrooms, both featuring walk-in wardrobes and en-suite facilities. The upstairs area flows seamlessly onto the conjoining west-facing terrace, boasting spectacular mountain views, and the opportunity to never miss a sunset again!

Septimo Cielo perches high up in the mountainous area of Jalon. A maze of pretty cobbled streets, Lliber has a cafe in the main square where you will often see thirsty cyclists taking a break. A short drive away is the larger village of Jalon where there is a weekly Rastro - antique market - where you can also pick up locally grown fruit and vegetables. The house is ideally located for mountain walking and cycling, the surrounding wilderness is perfect for wildlife enthusiasts and bird watching. There are many resorts within a 20 min drive from the property for those seeking a beach.
